SUMMARY

I have 3 year 02 months of experience building reliable web apps. I write clean code, solve problems, and create user-friendly websites and strong backends. I work well in teams and stay committed to delivering quality results.

WORK EXPERIENCE

Front End Developer

OCT 2024 - Present

IAK Global Consulting – Dhaka, Bangladesh

- Converted complex UI/UX designs from Figma and Adobe XD into responsive web interfaces using React.js, Next.js, Vue.js, Tailwind CSS.
- Built scalable, maintainable front-end architectures with lazy loading, modular components, and code splitting. Managed global state using Redux Toolkit, RTK Query, and Context API.
- Gained hands-on experience working with PHP stack, including Laravel and Inertia.js for building dynamic web applications.

Web Developer (Remote, Part-Time)

Apr 2024 – Apr 2025

Dot in Technology, India (Digital Marketing Agency)

- Developed dynamic websites with React.js, Next.js, and Tailwind CSS for various clients.
- Built RESTful APIs using Node.js and Express.js.
- Enhanced performance and security of MongoDB and MySQL databases.
- Managed app state with Redux Toolkit; collaborated with team via GitHub.

Front End Developer (Remote)

Nov 2022 – Sep 2024

Karmasangsthan, Dhaka, Bangladesh

- Created responsive UI with React.js and Next.js.
 - Used Redux Toolkit for seamless app state management.
 - Maintained clean code and team collaboration through Git & GitHub.
-
